Subject: Pheasant Opener

Gentlemen:

I have Mark Mazahri from Fargo (KFGO) confronting me with a letter that the Governor had written to Prairie Vista Bed and Breakfast (Cannonball Company) indicating that the hunting season was going to open the first weekend in October. That he had talked with the game and fish department and it was a done deal. We didn't agree until October that we were going to have a change in season and then it would be to the first weekend after the waterfowl season.

He has faxed the letter all over the state and I have reporters calling for an explanation.....I think we need to visit ASAP about a course of action.

I know that Bob is going to be here tomorrow at 9 AM, but I am sure my phone will be ringing at the house tonight and certainly in the morning. Mr. Mazahri was very tenacious in his phone message left on my machine. He mentioned he had called the Governor's office and that he was awaiting a call from him. I think we all should have an understanding of what we are doing.

Dean
